Ixxat CAN Y-cable

Item number: 1.04.0076.00001

The Ixxat CAN Y-cable (0.22 m length) is used to easily loop through CAN or CAN FD networks. Its shielded design and twisted wires ensure minimal interference and reliable data transmission.

Connects CAN/CAN FD components (22 cm, D-Sub 9 plug to socket/plug)

Features and benefits

Dual D-Sub 9 connectivity

Features a 9-pin D-Sub socket to socket and plug design, enabling flexible connections to various devices in the network.

Cable length: 22 cm

This cable has a total length of 22 cm (without connectors: 12 cm). A longer variant with a total length of 210 cm is also available.

Convenient integration

Features a direct 1-to-1 pin assignment, making connection straightforward.

Ixxat CAN Y-cable

General

Net Weight (g)	76
Packed Weight (g)	76

Identification and Status

Product ID	1.04.0076.00001
Country of Origin	China
HS Code	8544429090

Physical Features

Contains Battery	No

Certifications and Standards

WEEE Category	IT and telecommunications equipment
