

## VariSorb CE

### Product Overview

- Suitable for cleanroom environment
- Multi-layer pleated media for single or multiple gases
- High adsorption capacity and high removal efficiency
- No dust and no out-gassing properties
- Easy to install
- Energy efficient
- Low pressure drop
- ISO Class 6 Cleanliness Class
- Mini carbon granules embedded between two non-woven synthetic layers

### Specification

Filter Depth (mm)	50 - 100
Media Type	Carbon, Impregnated Carbon, Ion Exchange Resin
Frame Material	Aluminium, Galvanised Steel, Stainless Steel
Gasket Sealant	EPDM, PU
Special Size Available	Yes
Header Type	None Header
Target Gas	VOC, Acid, Base
Recommended Operating Temperature	10 - 40°C
Recommended Relative Humidity	30 - 70%
