

Brass Buss Bar - 12 positions
CX-DC-EBBB12

Specification

FEATURES AND BENEFITS

- Copper material reduces electrical resistance and power consumption, capable of handling stable current loads and good voltage distribution.
- The surface is nickel-plated to protect the copper conductor from oxidation or gas formation.
- Clean, burr-free holes ensure good contact between the bolt and the conductor.
- Easy to use, no need for protective cover, can be used directly, wiring is simple, convenient and fast.

CONSTRUCTION

Mechanical data	Value
Connector Type	Screw
Number Of Contacts	12
Mounting Type	Panel Mount
Material	Copper with nikel plated
Screw size	M5
Hole diamete	7mm
Dimensions (LxWxH)	109mm x 13mm x 8mm
