ABOUT US

— COMPANY HISTORY

AVC Charcoal, founded in **2014**, with very big 4 factories, is one of Vietnam's leading companies in the manufacturing and export of charcoal products.

We supply a wide range of charcoal products across two main categories — **Sawdust Charcoal, Wood Charcoal**, — under our "**AVC Charcoal**" trademark, as well as OEM services for many international brands.

With over 12 years of production experience and strong expertise in export, we are your most reliable and preferred partner for high-quality charcoal products.

RECOVERED BY-PRODUCTS

CHARCOAL PRODUCTS

Over the years, AVC Charcoal has become a trusted and preferred choice for customers worldwide. With a 20,000 m² factory, we are capable of sourcing and storing large volumes of sawdust to ensure stable production and consistent supply.

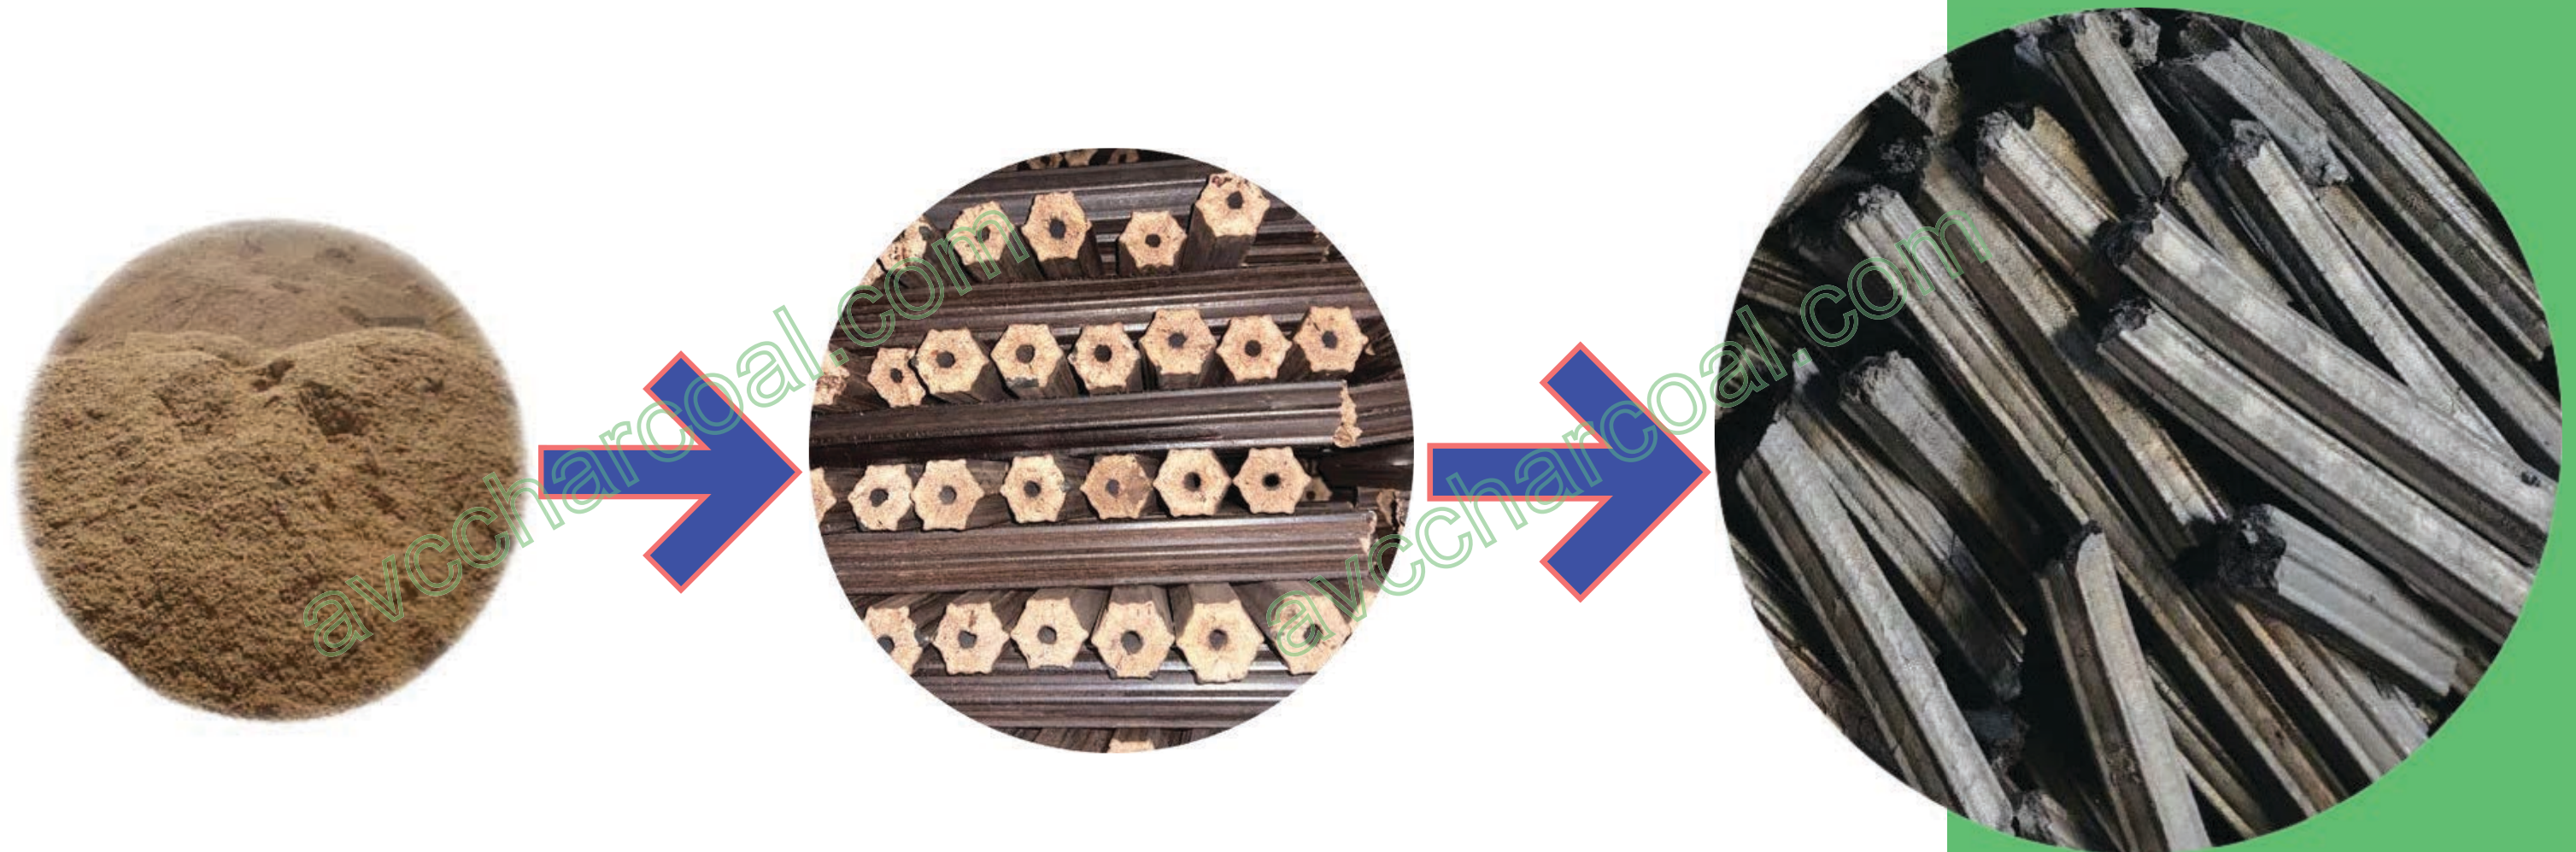

Our raw materials are recycled sawdust and wood residues collected from furniture factories and sawmills—recovered by-products that help reduce waste and protect the environment.

WHY CHOOSE OUR PRODUCT

CHARCOAL PRODUCTS

Eco-Friendly Raw Materials: Our sawdust is collected from wood-processing factories and furniture workshops. By recycling this waste material, we not only avoid deforestation but also contribute to protecting the environment and sustainable living.

✓ Hexa

OUR PRODUCTS

CHARCOAL TYPES

The leading manufacturer of high-quality charcoal in Vietnam.

We supply square and hexagonal sawdust charcoal with a total capacity of 60–80 x 40HQ containers per month from our four factories.

Our mission is to create sustainable livelihoods for local workers and to promote an effective, professional international business environment.

✓ Cube

CHARCOAL PREMIUM QUALITY

BRIQUETTE CHARCOALS

More Durable

Long-lasting charcoal that burns steadily for 5-7 hours.

Good Quality

Our charcoal is known for its consistent, premium quality with Fixed carbon content above 85% and excellent burning performance for global customers.
